## Preface

It is with immense pleasure that I present the Self Study Report (SSR) of our institute to the National Assessment and Accreditation Council (NAAC), Bangalore. This report is the phenomenal out-come of all the facets of our Institute. It is rather not an easy job to enlighten each and every facet of our organisation. I am here actually to appreciate the efforts put in by the members of the staff for their collaborative and collective ventures with an open heart at our single disposal every time.

It is a realized fact that the professional education of a teacher bears the burden of qualitative improvement in the field of educating India. Besides this, there is one more aspect of the teachers which needs to be nurtured other than professional qualification and that is their mental and emotional health. Taking this into consideration, the Chief Founder and Director of Vishv Siksha Niketan Sansthan our Reverred Gurudev H.H. Brahmurishi Vishwatma Bawra ji felt the need to start a College of Education in 1997 with D. Ed. (One Unit i.e. 50 seat) in the very premises of Sansthan's main Centre Virat Nagar, Pinjore. With the loving assistance from our society and hard work of our staff we have gradually grown up with now B. Ed. 100 seats and D. Ed 100 seats. The institute is presently being run by the management of Brahmurishi college of education headed by Swami Dr. Amrita (Masters in English, B. Ed. Gold Medalist, M. Ed and Ph. D. in education from Panjab University, Chandigarh).

It is all because of the efforts of the Principal Chairperson Swami Dr. Amrita Ji and the dear members of the managing committee and staff that our institute has touched the coveted heights of glory with discipline and dedication. Inspired by the great Vedic Sanatan philosophy to see oneness in all – एकत्वं अनुपश्यतः, The student-teachers are trained to attain doubtless knowledge i.e. wisdom, lustless love and selfless service.

The college is proud of all its achievements so far yet, much more needs to be done. We are striving our best for providing, needs and values based education to the motherland. We are always in the fore-front for the providence, sustenance and enhancement of quality in education. We eagerly and keenly follow the current and latest trends in teacher education to lay strong foundations of learning and strengthen the urge to excel.

## **Executive Summary**

### **Strengths:**

Brahmrishi College of education operates in a very conducive, congenial, disciplined, supportive, motivate and divine atmosphere wherein the regulatory body along with the academic body strives as a unit to attain and maintain the following features of the institution.

- ✚ High enrolment of students through a transparent admission process.
- ✚ Healthy and peaceful environment for providing education.
- ✚ Discipline is the key to success and college maintains disciplined environment as in the college there is a dress code for students and even for the teachers also.
- ✚ There is a cooperative environment between the staff and the management.
- ✚ Emphasis is laid on inculcation of intellectual, social, moral, cultural and spiritual values.
- ✚ Good numbers of text books with multiple titles and reference books in the library of the college.
- ✚ Good numbers of computers to facilitate the students with practical knowledge
- ✚ Internet connection with Wi-Fi connection at different segments of the college.
- ✚ Financial support in terms of free ships and Post-Metric Scholarships for SC/ST Students and OBC students under state government schemes.
- ✚ Good relationship between the students and the faculty members.
- ✚ Qualified and dedicated faculty members.
- ✚ Teacher's diaries are prepared by the teachers & checked by the principal regularly to ensure that curriculum is going on properly.
- ✚ Active NSS unit, Social Service Club, Spiritual club, Placement cell, Sports committee, Alumni association etc. for organizing/ participating different extension and outreach programme.
- ✚ We have huge and magnificent infrastructure with almost all the facilities of teaching-learning process, student progression and environment friendly campus.

- ✚ We have well furnished laboratories as computer lab, language lab, Science lab, Psychology lab, Math's lab, ET lab etc. So that students can acquire practical knowledge.
- ✚ Activities record is maintained properly so that it can be monitor that activities are going according to schedule.
- ✚ In order to develop competency in basic skills involved in teaching, the students take opportunity to get demonstration of model lessons by technological devices viz. multimedia, OHP, LCD projector, Power point presentations etc. Then they are also provided with the opportunity to give their micro lessons through these devices.
- ✚ Morning assembly is also important part of curricular aspect which is filled with themes every day.
- ✚ Students are divided in to houses so that in each particular group, students can learn to work as team.
- ✚ To promote physical and psycho-social development of students yoga classes are also the part of their curriculum.
- ✚ Innovative techniques of teaching like seminars, tutorials, projects and multimedia presentations are used.
- ✚ Students are given assignment and students are encouraged to prepare it using different reference books.
- ✚ Organization of extension lectures to broaden the mental horizon of the students and to strengthen their cognitive structure on diverse topics.
- ✚ Well maintained and comfortable class rooms, Staff room, wash rooms etc.
- ✚ Student teacher ratio is less than 30% which is beneficial for the students.
- ✚ Regular meetings of principal with staff members. Etc.

Above all, the inspiring leadership of the Principal with her sincere dedication has added immensely to the strength of the college.

## **In progress**

The college has substantial potentiality for enhancing/expanding its educational operations by bringing about innovative changes in teaching-learning-evaluation, library resources and laboratory resources with the support of its qualified teachers. We have enough ground space for expansion of building and infrastructure. The college has opportunities for establishing additional linkages with other institutions/organizations of the state to enhance the quality of its outreach

programmes. Maximum use of ICT to reach out to the global pool of knowledge is the opportunity of the college.

#### Key relationship with the practice teaching schools:

- ✚ Government schools: Our students of B. Ed. and D. Ed. for their teaching practices go in the govt. schools. Students of D.Ed. course complete their internship for six months in the govt. schools. This maintains a relationship between practice teaching schools and the institute.
- ✚ Private Schools: Private schools participate in the placement of the students conducted by the placement cell of the institute.

Besides, this govt. schools or private schools are also invited to the college seminars/ functions etc. which maintains a warm relationship between schools and the institution.

#### Key relationship with the Community at large:

Our institution keeps links with the established organizations in near by area like; CRPF, Saket, Senior citizen association, various social organizations like Brahmin Sabha, Punjabi Sabha, Ravidas Sabha etc. are invited from time to time. Various organizations are helped financially also like:

- Mother Teresa saket council Chandimandir (NGO)
- Mandhudhar kasauli (Leprosy center)(GO)
- Rotary club sec-35 Chandigarh (NGO) etc.

#### **Challenges:**

Faced by the institution in building the quality institution as follows:

- ✚ Maintenance and upkeep of huge college building and campus
- ✚ Modernization of all laboratories according to need.
- ✚ To make our institute approachable by various mode of travelling
- ✚ To compete with other institute with relation to the process of admission although there is no other B. Ed. college within the radius of 40 K.M.
- ✚ To involve & invite other colleges of education to a remote place like ours

## **THE EVALUATIVE REPORT**

# **CRITERION WISE ANALYSIS**

## **(CRITERION I)**

### **(CURRICULAR ASPECTS)**

#### **1.1. CURRICULAR DESIGN AND DEVELOPMENT:**

**1.1.1. State the objectives of the institution and the major considerations addressed by them. (Intellectual Academic, Training, Access to the Disadvantaged, Equity, Self Development, Community and National Development, Issue of Ecology and Environment, Value Orientation, Employment, Global trends and Demands, Etc.)**

The Institution was established with the main aim of providing quality education to the prospective teachers and teacher educators which helps to explore all what is good in human personality and to annihilate all that is bad. Institution is striving hard for preparing efficient and effective teachers to develop inherent potentialities and to achieve the ideal of education by imparting education of body and soul and through various curricular, and co curricular and value added programs.

To achieve its aim the institution has its motto and also follows some objectives:-

#### **INSTITUTION MOTTO:-**

- In service of humanity (Sarv Bhut Hitey Ratah)
- Unity in diversity (Ekatvam Anupashyatah)

#### **INSTITUTION'S MISSION:**

WISDOM—Doubtless Knowledge

LOVE—Lust Less Love

SERVICE—Selfless Service

#### **INSTITUTION'S VISION:**

Keeping in view the vision of Reverend Gurudev Brahmurishi Vishvatma Bawra ji that “A child is a very delicate plant of the Divine nursery, the best way to nurture it, is through Wisdom, Love and Service”. The vision of the college is to innovate and energize the prospective teachers with right attitudes, values and ideologies to.

- Act as a facilitator among their pupils through appropriate skills and methodologies.
- Attain the heights of academic achievements through hard work critical analysis and clarity of decisions.
- Provide the effective and responsible leadership and render selfless service to community at large.

### **VALUES:**

The values that we inculcate at Brahmurishi College of education are:

- Faith in God
- Moral uprightness
- Social responsibilities
- Love to follow the culture
- Pursuit of excellence and perfection
- Sincerity, Commitment and dedication
- Love for nation
- National integration
- Religious harmony

### **OBJECTIVES:**

- To develop the discriminating faculty among the educators capable to re-establish the moral and social values changing in the light of material science.
- To inculcate among educators a scientific attitude and independent thinking enabling them to assimilate the new achievement.
- To help the educators to establish cooperative social discipline for harmonious development and to cultivate other utilitative and important values of life.
- To enlighten educators mind with the truth of philosophy of life based on the true facts and laws of nature.
- To liberate the educators from spiritual ignorance.
- To cultivate in the lives of educators forces of higher character, such as duty, discipline, honesty reverence, gratitude, selfless service etc.
- The fulfillment of this very aim with wisdom, love and service is the main objective of Brahmurishi College of Education.

The institute ensures that the stated objectives of the curriculum are achieved within the academic year by implementing various considerations as follows:

## **MAJOR CONSIDERATIONS ADDRESSED:**

- **INTELLECTUAL:** It is the core objective of the institution that our prospective teachers should be intellectually developed. Intellectual development is achieved by organizing various programs such as seminars, workshops, extension lectures and different competitions etc.
- **TRAINING:** The institution offers undergraduate course B.Ed. and Diploma Course (D.Ed.). Institution provides platform to the students to get able into professional and entrepreneurs by organizing the programs such as career counseling and guest lectures of renowned persons, through the training in their school education programme.
- **ACCESS TO DISADVANTAGED:** The institution conducts additional unit tests, house tests which help the students to get advantaged who are showing poor performances. They are also advantaged through yoga and meditation to build up their confidence.
- **EQUITY:** Equal opportunities are provided irrespective of caste, creed, religion or economic status of prospective teachers.
- **SELF DEVELOPMENT:** to promote self development of the students teachers give the assignments related to the subject and help them to use different books, reference books from the library. They also guide them to prepare the assignments through power point presentation etc. which are helpful for self development of the students.
- **COMMUNITY AND NATIONAL DEVELOPMENT:**  
Rural, Underprivileged female and Underprivileged minorities are helped economically and psychologically through counseling's, meetings and door to door approach by the missionary people.

Cleanliness awareness drives are carried out. The staff and students participate in drives in the city public places like markets, roads and gardens etc which promotes the goal of community development.

- **ISSUES OF ECOLOGY AND ENVIRONMENT:** To maintain ambience and ecology of the college campus, Lawns are maintained and campus is kept clean. For the beautification of campus tree plantation including medicinal plants and ornamental plants is done which are manicured regularly.

- **VALUE ORIENTATION:** Institute organizes value orientated programs like thought of the day, national, international and college news are the important part of morning assembly each and every day students learn something new in morning assembly. All national days and festivals are get celebrated so that students can value their culture and values can get incorporated in them. Institute also organizes various co-curricular activities like visits to mother Teresa Haryana saket council chandimandir, mandhudhar kasauli, slum areas etc. to develop social values. Besides this Spiritual values through lectures delivered by highly intellectual saints and yogis of higher order are developed.
- **EMPLOYMENT:** employment is a major consideration in the design and development of curriculum. So the institution has established a counseling and placement cell which provides counseling and career guidance to the students. It also helps to organize campus interviews for the placement of the students, employments are provided by the institute as well.
- **GLOBAL TRENDS AND DEMANDS:** The institution has a well equipped computer cum language lab where students can develop communication skills, ICT and also internet facility for global connectivity.

### **1.1.2 Specify the various steps in curricular development processes.**

Since the institution is running diploma and under graduate course i.e. D.Ed. and B.Ed. Course. Designing of the curriculum and development is based on the syllabi provided by board of school education, Bhiwani and Kurukshetra University, kurukshetra respectively. The principal together with the faculty members discusses in the transaction of curriculum into action. The elaborate plan of action is based on feedback from faculty, students, alumni and all academic experts, distributed in the form of academic events evenly so that students are given opportunity to develop and achieve the goal stated in the institutional motto

- Assessment- Terminal Examinations, unit tests etc.
- The performance is recorded in data base.
- Seminars and workshops are conducted for expert lectures pertaining to the curriculum.
- Feedbacks from students are recorded.
- Feedback from various local bodies and institutions are also recorded.

### 1.1.3 How are the global trends in teacher education reflected in the curriculum and existing courses modified to meet the emerging needs?

For the effective delivery and transaction of the curriculum various initiatives suitable to the global trends and competencies have been taken which are inclusive of the following lines:

- **Vocational Education:** To be a teacher by profession and earn their livelihood by getting training in B.Ed. Courses.
- **Community health education:** Training camps and seminars are organized by the college to give knowledge about health like training by Red Cross Society, by organizing seminar on Breast Cancer awareness, celebrating nutrition week etc.
- **Inclusive Education:** Inclusive education is also the emerging need of the society to meet this need inclusive education is included as a full fledged subject both in B.Ed. and D.Ed. courses to give the knowledge about differently abled children and how they can be included in the education of normal ones as they are the neglected parts of the society. Keeping in view to not to segregate but to include and educate each and every person regardless of their abilities or disabilities, caste, colour, creed or sex inclusive education is the best path for which institution has also provided opportunity to take practical knowledge by visiting the institutes like Saket (institute for handicap).
- **Multi cultural and co-curricular activities education:** College organizes cultural programme like.
  - At the beginning of session welcome of students is done by organizing Ramayan path.
  - At the beginning of session 'talent hunt' contest is organized for identifying specific interests and abilities of the students; it is open to all students.
  - Festivals like diwali, lohri, holi, basant panchmi, janamashtmi, guruparv and Christmas etc. are celebrated in the college to make students aware regarding their country and its culture.
  - Sports function is also celebrated in every session.
  - Educational tours (like tour to science city kapurthala, shimla chail, naina devi, mallha botanical garden etc.)
  - Summer fest, mehendi competition, diwali fest etc. also organized in the college.
  - Apart from this, college has introduced educational technology as an additional component to enable the prospective teachers to make use of latest devices in teaching learning process like by using OHP (over head projector), epidiascope, slide projector and also by preparing power point presentation etc.
- **Other educational workshops / seminars:** according to the need of the society, college organizes workshops and seminars. Like college organized seminars like seminar on RTE, Women Empowerment, humanistic education, value education-issues, challenges and solutions, प्राचीन एवं आधुनिक संदर्भ में पाठ्यचर्चा के अंतर्गत शिक्षण, अधिगम, अभ्यास तथा मूल्यांकन का विवेचन, युवाओं का भारतीय संस्कृति की ओर प्रत्यागमन and workshops like personality development and self power, fine arts etc.

### 1.1.4 How does the institution ensure that curriculum bears some thrust on national issues like environment, value education and ICT?

Technology, social diversity, religion and culture affect the planning of curriculum. Traditional and current trends in these fields form an integral part of the course. The institution imparts skill development by giving knowledge about environment, value education and ICT through different ways.

1. The goal and objective of developing scientific and logical temperament is achieved through the ICT education:

**ICT-** For imparting the knowledge of ICT to the students, this institution make use of computer lab in which basic skills, internet and power point presentation are the important part for the learning for both D.Ed. and B.Ed. students so students are get motivated for using modern ICT for effective teaching and learning process. ICT is a full fledged subject also for B.Ed. course in which they get theoretical as well as practical knowledge of ICT.

2. The goal of establishing harmony with nature and spirituality is achieved through environment education:

**Environment education:** Apart from this, institution also organizes co-curricular activities related to environment education which includes the plantation, walk-a-thons, cross city awareness programs, celebration of environment day and lectures from eminent persons. Environment education has been introduced as an optional subject in B.Ed. course to enable the students to understand the conceptual framework.

3. The goal of cultivating higher character, morality with honesty reverence and gratitude is attained by providing value education to the students:

**Value education:** The motto and objectives of the institution is to impart value oriented and quality education.

- Workshops and seminars on value inculcation like ‘ humanistic Education’, ‘ women empowerment’, Value Education, प्राचीन एवं आधुनिक संदर्भ में पाठ्यचर्चा के अंतर्गत शिक्षण, अधिगम, अभ्यास तथा मूल्यांकन का विवेचन, युवाओं का भारतीय संस्कृति की ओर प्रत्यागमन
- Morning assembly is organized every day in which inculcation of values with different views and themes motivates the students.
- Organization of lectures on value education by the principal on regular basis is best and important feature of the college.
- Training in yoga (yoga class) is also organized both for B. Ed. and D. Ed. courses.

- Celebration of national and religious festivals like Lohri, Independence day, republic Day, Diwali, Women's Day, etc. foster social, cultural, religious, and regional integration students are also encouraged to participate in these functions.
- Community service is an integral part of B.Ed. course and D.Ed. course. Under this student get encouraged to perform services at special school, slums areas and old age home etc. students general provide their services at Mandhudhar Kasauli (leprosy patients) and saket (Handicap inmates).

All these bears thrust on objectives of the institute.

### **1.1.5 Does the institution make use of ICT for curricular planning? If yes give details.**

Yes, the institution makes use of ICT.

Admission process both for B.Ed. and D.Ed. courses goes on online availability of students and reporting of students to the concerned department all go through online procedure.

Institution makes use of ICT for curricular planning and teaching.

ICT for planning and teaching includes OHP, Projector, and slide projector for effective training to the students. In the transaction of curricular also ICT is used in the following aspects.

- Academic calendar
- Administrative work
- Circulars
- Duties and responsibilities of staff
- Examination related works internet browse
- Invitations preparation
- Time table
- Power point presentation
- Website up-gradation
- Record keeping etc

## **1.2. ACADEMIC FLEXIBILITY:**

### **1.2.1 How does the institution attempt to provide experiences to the students so that teaching becomes a reflective practice?**

In order to make teaching reflective practice, a number of activities and workshops on various teaching skills are organized. Faculties and students take part in these activities.

Reflective thinking is enhanced in following ways.

- Through discussions (group discussions). Students are assigned different topics for discussions.
- Demonstration lessons (micro and macro) are given by faculty members.
- Students are encouraged to critically examine the lessons given by their peers also.
- Students are encouraged to retrospect their experiences in their classroom, or in school education programme and note down the strengths and weaknesses and to suggest alternative actions that could be taken .Record books are maintained.
- Correction approach is used while teaching so that the students learn to reflect and apply their knowledge in different situations.
- Surveys on different social and economic problems like on illiteracy, adult education. Our D.Ed. students are working on “each one, teach one” in which every student has to teach an illiterate person on regular basis from their locality, community, which encourages them to educate at least one illiterate.
- Activities such as seminars, workshops, essay writing competitions, blackboard writing competitions are organized for all round development of the students.
- Micro teaching and Mega lessons are delivered of which proper data and record is kept and maintained by observing students which is further used for improvement strategies.

All these activities help to provide the experiences to the students in making teaching a reflective practice.

### **1.2.2 How does the institution provide for adequate flexibility and scope in the operational curriculum for providing varied learning experiences to the students both in the campus and in the field?**

Institution provides all facilities for smooth curriculum transaction either in the campus or in the field.

In the campus, students get adequate flexibility and scope in the sense that institution provides elective options and methodologies in B.Ed. course offered by Kurukshetra University. Institution offers all combinations of teaching subjects [(all offered by Kurukshetra University) and also

mentioned in handbook] in B.Ed. programme students have again a chance to learn and get experience through community based projects which is according to the student's flexibility and scope of learning experiences viz out of school children enrolment drive, recycling of waste paper, mid day meal- preparation to monitoring and serva shiksha abhiyan (SSA) project etc Which gives the learning experiences to the students in a theoretical as well as practical way. Curriculum flexibility also involves child learning as a pivot to the programme, remedial teaching and competency based teacher education is motivated to have varied learning experiences.

Following are provided to the students for the same:

1. Class room lectures
2. Small group learning
3. Extension lectures
4. Seminars and workshops
5. Group and Individual projects

Out campus programmes like practice teaching, field trips are also arranged by the management to compliment the knowledge and to develop the service mind of students.

Field works, organizing various events like cultural activities, competition, exhibitions, sports day etc. also provide varied learning experiences.

### **1.2.3 What value added courses have been introduced by institution during last three years which would for example: develop communication skills (verbal and written) ICT skills, life skills, community orientation, social responsibility etc?**

COMMUNICATION SKILLS: Different competitions are arranged in the college to develop communication skills (verbal and written) like poetical recitation competition, essay writing, debates, quiz competition, specific days celebration, organization of various workshops and seminars which helps in improving communication skills. Computer cum language lab has been set up in the institution for promoting communication skills.

ICT SKILLS: ICT is an integral part of teacher training programme. All our teacher educators as well as prospective teachers are encouraged to make use of ICT in teaching learning process. In B.Ed. course ICT has been introduced as a subject. So they learn theoretical as well as get practical knowledge for ICT skills. For D.Ed. course also ICT classes have been allotted for their skills development.

LIFE SKILLS: Different options have been offered for life experiences to promote life skills among the prospective teachers, includes community based projects and work experiences i.e.

recycling of waste paper, out of school children enrolment drive, drawing and painting, mid day meal preparing to monitoring, Sarva shiksha abhiyaan (SSA) projects motivate the students to experience the skills and life situations.

Beyond this, competitions like drawing and painting, clay modelling, best out of waste etc. Also promote life skills experiences.

**SOCIAL AND COMMUNITY ORIENTED PROGRAMES:** Social and community oriented programmes are regular feature of the college like:

- Celebration of religious, national and international days (Gandhi jayanti, Teacher's Day, Independent Day, Republic Day, Nutrition Week etc.)

## 2.3 TEACHING – LEARNING PROCESS

**2.3.1:- How does the institution engage students in “active learning” ? (Use of learning resources such as library, website , focus group, individual projects, simulation, peer teaching, role- playing, internship, practicum etc.)**

Ans: - Active learning is essential part of B.Ed. and D.Ed. course. In order to make the student active and participate in teaching learning process, the learning is made student centered by using different methods like discussions, projects and seminars etc.

Library: - Use of library helps the students in active learning. There is a well developed library for the use of students. The library is used as a resource and knowledge center and students are motivated to spend time in reading resource books and other material available in library. The college students are issued library cards which they use to access the books for reference and also to get books issued. Library periods are allotted for the students in time table. The B.Ed. students are given assignments in different papers and are encouraged to collect information from the library. The students discuss their assignments later in the classes. The library has a reading room where students can spend time for library work. Students are encouraged to refer different books for writing reports or projects. Availability of newspapers, magazines, journals is also there in the library. All these help the students in learning.

Website: - [www.bceviratnagar.com](http://www.bceviratnagar.com)

College website is always updated, which is helpful for all faculty members and for students with updated information of college. There is a provision in college to access internet facility to faculties and students. Students are encouraged to make extensive use of internet for updating and enrichment of their information. The internet facility availed to students:-

- a) Supplement their information on various topics in the syllabus.
- b) To get latest information in planning their lessons.
- c) To get new ideas for preparation of their projects and assignments.
- d) For locating resources while preparing multimedia presentations.

Projects: - Project as a learning resource play important role in active learning in B.Ed. course the students have to take up projects. Some of these are done individually and others in groups. Projects on various topics like case study project, ICT project, and community based projects are assigned to students. For these Projects they conduct survey and write a report on the findings.

Simulation: - Micro teaching is done in simulation mode by the students in classrooms. Prospective teachers are trained in artificial conditions before they are sent to school for their teaching practice. Each student plays the role of teacher, the supervisor and a student. Through this activity the student develop the different skills of constructive criticism. They also learn from mistakes made by their peers.

Peer teaching: - It is mandatory for every student to deliver micro lessons in front of their peers. They make use of transparencies, power point presentations or other multimedia presentations for teaching to peers. Through this they get a lot of confidence.

Internship: - Both B.Ed. and D.Ed. students are sent to different schools for internship and teaching practices program. During their internship period they take all responsibilities expected from a regular teacher. They take active part in school activities, each they try to indulge school students in learning and activity program which they are lacking due to any reason. They participate in school assembly, celebrate national days, cultural programs, help in serving mid-day meal with more hygiene, classroom management, substitution class's adjustment with school personnel and their peer groups, maintenance and beautification of school campus etc.

Practicum:- The college has well equipped laboratories to carry out experiments like science laboratory, ICT laboratory, psychology laboratory , art & craft workshop, health and physical education room etc. all these laboratories help as a learning resource for the students in active learning.

### **2.3.2:- How is learning made student centered? Give a list of participatory learning activities adopted by institution and those which contributed to self management of knowledge and skill development by the students?**

Ans: - Activities which made learning student centered and contributed to self management of knowledge and skill development by the students are:

- Students are encouraged to interact in classrooms.
- Students are involved in tutorials, laboratories, seminars.
- Knowledge management skills are inculcated by inviting student's ideas and concepts in projects.
- By encouraging them to use institutional facilities like library, laboratories, language lab & educational gadgets.
- By encouraging them to present paper in seminars.
- Forming & organizing club activities.
- Leadership and organizing skills are developed by conducting cultural programs.
- Quiz programs, educational tours, medical camp are conducted by involving students.

- Case studies are encouraged.
- In performing all responsibilities of a regular teacher during teaching practice etc.

**2.3.3:- What are the instructional approaches (various models of teaching used) and experiments provided for ensuring effective learning? Detail any innovative approach/method developed and used.**

To supplement the lecture method by other learning/teaching methods use of computers/OHP is being adopted. The teachers are encouraged to complement the teaching methods with practical skills and making the learning process more effective and interesting.

Following are the innovative teaching approaches adopted by the faculty members according to the demand of their subject/ programme:

- Educational tours
- Fields Tours
- Socio-Economic and Psychological surveys
- Workshop and extension lectures by subject experts
- ICT based lectures
- Help of models and experimental kit.
- Power point presentation method is being adopted
- Seminar/workshops organized by the college

Besides these approaches innovative methods adopted by the faculty members are:

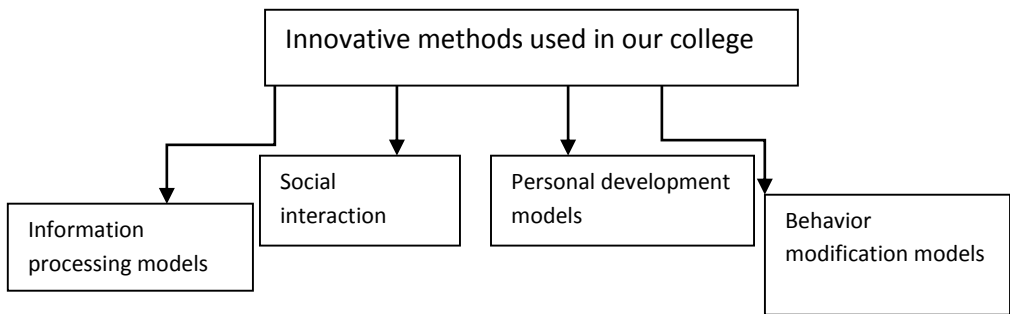

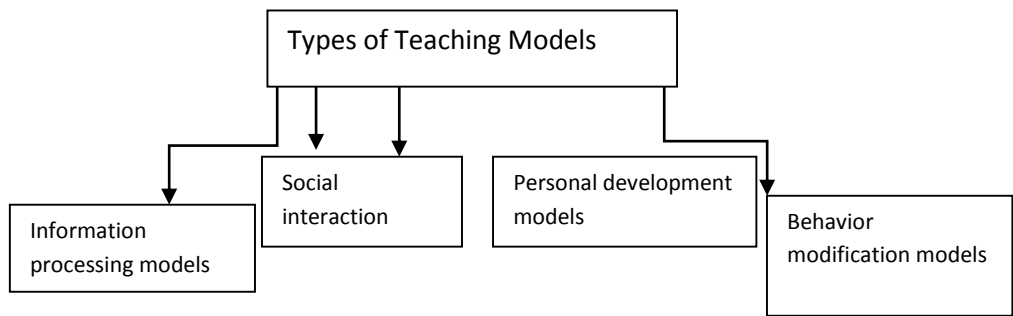

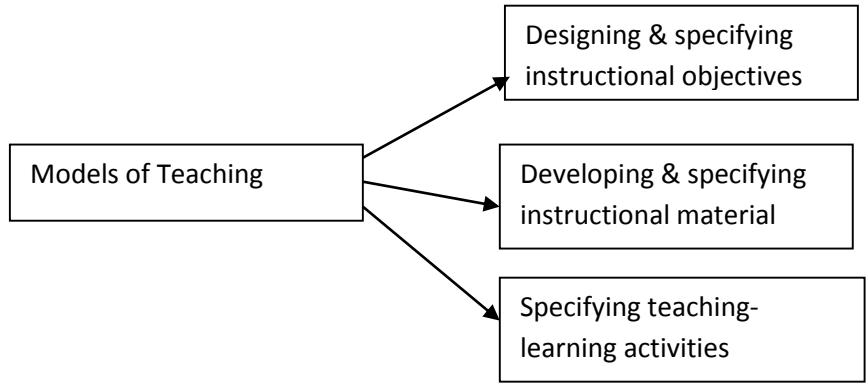

Education is a light that shows the mankind the right direction to surge. The purpose of education is not just making a student literate but adds rational thinking knowledge ability and self sufficiency. When there is willingness to change, there is a hope of progress. Creativity can be developed and innovations benefits both students and teachers.

“School faculties and individual teachers create life in school by model of teaching they choose and create.”

Models of Teaching

Teaching model is a pattern or plan which can be used to shape a curriculum or course, to select instructional materials and to guide a teacher’s action.

Functions of Models of Teaching

Alone, all is 9. Teaching with sense of Humor-which is an effective medium of teaching.

Everyone loves a teacher with an infectious sense of humor. Looking at the lighter side of life fosters cordial relations between professors and students, but also provides welcome relief while trying to follow a difficult lecture on a complicated subject. When there is a willingness to change, there is hope for progress in any field. Teaching is a challenge. Learning is a challenge. Combining both effectively is a challenge. Thus besides using these innovative methods, or lecturers teaches with sense of humor which brings smile, relief and confidence among would be teachers as “smile makes the world go round”.

From the above we can make out that the information and communication technology has made many innovations in the field of teaching and also made a drastic change from the old paradigm of teaching & learning. In the new paradigm of learning, the role of student is more important than teachers. The concept of paperless & pen less classroom are emerging as an alternative to the old teaching learning method. Now a day there is democratization of knowledge and the role of the teacher is changing to that of facilitator. We need to have interactive teaching and this changing role of education is invertible with the introduction of multimedia technology.

### **2.3.4:- Does the institution have a provision for additional training in models of teaching and number of lesson given by each student?**

Ans: Yes, Our institution **Brahmrishi College of Education** has a provision for additional training in models of teaching. Pupil-Teachers are provided extra classes for practicing of micro teaching skills.

Our college provides them:-

1. Over-head projector
2. Computers for power-point presentations
3. Library for consulting books of different writers.
4. Science lab

In the practice session of skills of micro-teaching, students are divided into small equal groups and are given practice of all the five skills along with the audio-visual aids.

Here Pupil-Teacher prepares five teaching lesson plan each for both teaching subject and five more lesson plans for re-teaching.

Two charts and two working models for both teaching subjects.

All this is for micro-teaching session.

### **2.3.5:- Does the student teacher use micro-teaching technique for developing teaching skills? If yes list the skill practiced and number of lessons given by each student per skill.**

Ans: - Yes, the student teacher uses micro-teaching technique for developing teaching skills.

Micro-teaching is a teacher education technique which allows teachers to apply clearly defined teaching skills in carefully prepared lessons in a planned series of five to ten encounters with a small group of real student or micro-teaching is a training technique which requires student teacher to teach a single concept using specified teaching skill to a small number of pupils in a short duration of time. It is relatively a new experience or innovation in student teaching.

### Micro-teaching Cycle

Micro-teaching skills on which practice to pupil-teacher are given are:-

1. Questioning skill
2. Introducing a lesson
3. Skill of stimulus variation
4. Skill of illustration with example
5. Reinforcement

In the practice session of the skill of micro-teaching students are divided into small equal groups and are given practice of all the five skills along with the use of real objects and audio-visual aids.

Here pupil-teacher prepares five teaching lesson plan each for both teaching subjects and five more lesson plans for re-teaching.

Two charts and two working models for both the teaching subject.

All this is for Micro-teaching session.

### 2.3.6:- Detail the process of practice teaching in school?

(Lessons, a student gives per day, Lessons observed by teacher educators, peer school teacher, feedback mechanisms & monitoring mechanism of lesson plan etc.)

Ans: During pupil-teacher training, P.T are divided into small group(team)like fifteen to twenty P.T and are assigned along with two lectures in government school, where they practice their teaching according to their teaching subject. Each P.T. maintain the school curriculum for these twenty days by maintaining discipline in the morning assembly by delivering lesson on moral values and cleanliness. After this each P.T. goes to the class turn vise (according to the time table) and deliver their lesson to students.

Each student maintains their Mega Lesson File which contains twenty two lesson plans of each teaching subject. These lesson plans are divided into four categories:

- Discussion Lesson plan (1)
- Real lesson plan (15)
- Simulated lesson plan (5)
- Criticism lesson plan (1)

Along with this mega lesson plan file each P.T. also prepare one sessional file or file which includes records of their uniform, academic and non academic activities, their school timing, school uniform both of summer and winter, their report card, their admission form, character certificate, their school prayer, pictures of school infrastructure , record of staff, ministerial staff and principal and their sessional file is concluded with evaluation procedure which contains the tests on academic and non academic activities.

Thus these training days for P.T. mould all the three domains i.e. Cognitive, Affective and Psychomotor domain of P.T. and bring fruitful results.

### **2.3.7:- Are the practice teaching session. Plans developed in partnership cooperatively involving the school staff and mentor teacher. If yes give details on the same.**

Ans: - Yes the practice teaching session or plans are developed in partnership cooperatively involving the school staff and mentor teacher.

As any work done in teamwork or in collaboration leads to success as each member of the team has its own ideas, rules and working style. And when we talk about team work of teachers (who are already trained) obviously leads to success, leads to cognitive, affective and psychomotor changes which help in the development of country.

Our college, BRAHMRISHI COLLEGE OF EDUCATION provides training session in government schools to Pupil-Teacher for twenty days along with mentor teachers. There the P.T. follows academic and non academic activities of the school, under the guidance of school ministerial staff and mentor teachers.

It begins with morning assembly, which is the most important feature of school curriculum. Here students learn the value of collective prayer and are exposed to the need to inculcate moral values. Morning

assembly includes thought of the day, headline news both in English and Hindi, interesting facts, recitation of poems and shaloks and singing of national anthem.

And then the curriculum is followed by school time table which is for coordinating these four elopements i.e. (1) Student (2) Teacher (3) Room (4) Time slots.

Time table is framed according to the subjects which includes math, science, English, Hindi, S.St. etc. and during this training session P.T. also focuses on academic and non academic activities which includes quiz, competition, and fancy dress competition, dance competition, singing competition, painting and Rangolii competition.

Thus this training period of twenty days helps in developing teaching abilities in P.T. and also helps them to realize the role and responsibilities of a teacher (which informally called MOTHER).

### **2.3.8 Are the practice teaching plans developed in partnership cooperatively involving the school Staff and mentor teachers? if yes give details.**

The practice teaching plans are developed in partnership cooperatively involving the school staff and mentors teachers as

1. The pupil teacher and mentor teacher go to the practice teaching schools and get their syllabus and their time tables.
2. Then pupil teacher prepare their lesson plans accordingly
3. The pupil teacher also takes information about level of the students so they plan methods of teaching accordingly.
4. The teacher educators are responsible for the allotted schools for these particular days and hence they coordinate all the activities of the students to the concerned school and their in-charge teachers guide them. This help to maintain good rapport in mentor teachers and school staff.
5. During teaching practice in-charge teachers and school staff observe the pupil teachers and also give feedback.

Thus in this way practice teaching goes in cooperative manner.

### **2.3.9:- How do you prepare the student teachers for managing the diverse learning needs of students in schools?**

Diverse student learners include Students for racially, ethnically, culturally and linguistically diverse families and communities of lower socioeconomic status. If educators act on the knowledge research offers, we can realize the educational excellence we desire from all children.

The minority and low-income children often perform poorly on tests is well known. But the fact that they do so because we systematically expect less from them is not true. We assume that the low achievement of poor and minority children is bound up in the children themselves or their families. The children don't try. They have no place to study, their parents don't care, and their culture does not value education. These and other excuses are regularly offered up to explain the achievement gap that separates poor and minority students from other better placed ones.

But we in Brahmurishi College of education accept this problem as a challenge and apply following strategically methods to equip the educators to manage the diverse learning needs of the students.

- The Students are taken to such institutes which are meant to cater the needs of people of different states like Rajasthan Bhawan, Kashmir Bhawan.
- The student are taken to the places like kalagram where folk artists are tribal's from all over India come and exhibitions act as a medium for learning the diverse cultural heritage of India.
- The student are given time and project to personally reach the huts of the rickshaws pullers the migrants of other states in Haryana etc. And teach their young ones at their places.
- To get one to one experience of their family structure and status.
- The Students are especially sent to the Government run primary and secondary schools located rural and even backward areas and they spend time in guidance of their richly experienced Staff who mentors the young brains to understand the diverse need of the society.

### **2.3.10:- What are the major initiatives for encouraging student teachers to use / adopt technology in practice teaching?**

To encourage the student teachers so that they adopt technology in their teaching practice:

- They are made to use the ICT for making Power Point Presentations for making their lessons interesting and also breaking barriers between the resourceful and resourceless students.
- Financial help is also provided to the student teachers for providing technical help to the children.
- Various educational CD'S and documentaries are provided to the student teachers from college library to use them as teaching material while teaching practice.
- TV, VCD Players, cassette players are provided.

## **2.4 TEACHER QUALITY**

### **2.4.1 Are the practice teaching plans developed in partnership cooperatively involving the school Staff and mentor teachers? If yes give details.**

The practice teaching plans are developed in partnership cooperatively involving the school staff and mentors teachers as

6. The pupil teacher and mentor teacher go to the practice teaching schools and get their syllabus and their time tables.
7. Then pupil teacher prepare their lesson plans accordingly
8. The pupil teachers also take information about level of the students so they plan methods of teaching accordingly.
9. The teacher educators are responsible for the allotted schools for these particular days and hence they coordinate all the activities of the students to the concerned school and their in-charge teachers guide them. This help to maintain good rapport in mentor teachers and school staff.
10. During teaching practice in-charge teachers and school staff observe the pupil teachers and also give feedback.

Thus in this way practice teaching goes in cooperative manner.

### **2.4.2 What is the ratio of the student teachers to identified practice teaching schools? Give details on what basis the decision has been taken**

Usually for each school at least 10-15 students and one supervisor/in-charge teacher is the ratio of the Students teachers in practice teaching schools.

The numbers of students in particular School are based on;

1. Students can accommodate easily.
2. Student teachers can get individual attention of the supervisor
3. Students are allotted schools near their place of residence
4. Requirement of the school authorities regarding subject combination can be taken care of.

### **2.4.3 Describe the mechanism of giving feedback to the students and how it is used for Performance improvement.**

Feedback is given to the students in different ways.

#### **FOR THEORY PAPERS**

1. House tests are conducted in the college and result is maintained and feedback is provided to the students
2. Unit tests /class tests are conducted by the lecturers and weakness and strengths are discussed with the students.
3. Regular feedback is given to the students in the class room orally or in written form.
4. Students also handle project work and are supervised by the teachers and feedback helps them in improving performance.

#### **FOR SKILL IN TEACHING**

1. Besides these theory subjects, Skill in teaching is the important part for both D. Ed. and B. Ed. Students are trained for preparing lesson plans in their methodology subjects. Students prepare their lesson plans and are checked by the lecturers and feedback is given to the students.
2. Observations of skills during micro teaching are done by the peer group and by the supervisor. Emphasis is given on gaining mastery over 5 teaching skills.
3. Students practice micro skills and mega lessons and get feedback for improvement in performance.

### **2.4.4 How does institution ensure that students are updated on the policy directions and educational needs of the schools?**

Institution ensures that students are updated on policy directions and educational needs of schools .students core syllabus play important role for updating the students.

As the foundation courses and methodologies helps in updating the students on policy directions and educational needs of schools.

..... Foundation courses

In foundation courses, paper-philosophical and sociological foundation course acquaints the students with new philosophies of education the changing aims and objectives of education

5. Staff is encouraged to appear for NET examination, if it is required.

#### **2.4.7 Does the institution have any mechanism to reward and to motivate staff members for good performance? If yes give details.**

Institution rewards and motivates staff members for good performance.

For good performances staff members get increments in the form of reward and to motivate them they are appraised by the principal, also appraisals by the students. They are encouraged to attend the orientation programmes and workshops etc.

## **2.5 EVALUATION PROCESS AND REFORMS**

### **2.5.1 How are the barriers to student learning identified, communicated and addressed?**

The institution takes all efforts to ensure a smooth teaching learning process.

The barriers like personal problems need of any book in the library etc. are identified by

- Observation
- Discussion
- Question answer

The teachers are always available for consultation and guidance. There is a tutorial system that ensures individual attention to every learner. The college has a vast campus with natural surroundings and can boast Conducive environment for teaching learning process. In any case students face problems for power cut then this problem has been overcome by installation of generator. Seating arrangements is made comfortable for the students. Green lawns with adequate seating facilities enable the students to come in contact with nature. This helps them to recharge

during break after teaching schedule. In case students feel there is need of any particular book in library, books are purchased for the library. In this way if there is any barrier, then institution makes complete effort to overcome these barriers.

### **2.5.2 Provide details of various assessment / evaluation processes (internal assessment, midterm assessment, term end evaluations, external evaluation) used for assessing student learning?**

The evaluation is an indispensable part of academic work. College conducts house tests class tests at regular intervals. Internal assessment marks are credited on the basis of student's performances in the midterm exams, seminars, assignments' unit test and participation in co curricular activities etc.

Marks distribution for internal and external assessment is:

External assessment – 80

Internal assessment – 20

Each paper carries 80 marks for external exams and 20 marks for internal assessment.

### **2.5.3 How are the assessment/evaluation outcomes communicated and used in improving the performance of the students and curriculum transaction?**

- The answer sheets are evaluated and distributed to the students with remarks.
- Feedback is given immediately to the students by the teacher educators.
- Remedial teaching and special coaching is given to the slow learners by teacher educators.
- Tutorials are conducted for students who are weak in any particular subject.
- Meritorious student marks and names are displayed on notice board.

All these above practices help in improving the performance of student teachers and curriculum transaction.

### **2.5.4 How is ICT used in assessment and evaluation processes?**

In the present days computer is the standard tool for the process of assessment and evaluation. The institution also uses computers for this purpose.

- Submission of registration returns in hard copy as well as in soft copy.
- Submission of exam forms in soft copy also.
- List of practice teaching schools.

- Internal marks lists are prepared in soft copy.
- Question papers are set using computer.
- Typing evaluation charts for various activities.

## **2.6 BEST PRACTICES IN TEACHING LEARNING AND EVALUATION PROCESS**

### **2.6.1 Detail on any significant innovations in teaching/learning/evaluation introduced by the institution?**

Teaching, learning and evaluation is done through various teaching methods, strategies and activities like

- ❖ Innovative techniques of teaching like seminars, tutorials, projects and multimedia presentations are used.
- ❖ Students are given assignment and students are encouraged to prepare it using different reference books.

## **3.2 RESEARCH AND PUBLICATION OUTPUT**

**3.2.1 Give details of instructional and other materials developed including teaching aids and/or used by the institution for enhancing the quality of teaching during the last three years.**

Ans: For the quality enhancement, the institution has developed and used the following instructional material during the last three years:

### **1. Instructional and Other Materials Developed**

The following instructional material has been developed:

- a) Power point presentations for teaching different subjects.
- b) Transparencies and slides for teaching through OHP and slide projector
- c) Question bank and lecture notes are prepared
- d) CDs to demonstrate Micro Teaching skills
- e) Teaching aids like models (working or static), specimens, and charts etc. to be used for teaching during the internship programme
- f) Development of model lesson plans both for micro and mega for different methodologies
- g) Development of instructional material on different topics of schools subjects
- h) Development of standardized tests/scales by the faculty
- i) Development of teaching material from different sources as from reference books, internet etc.

## **2. Instructional Material used by the college**

The following instructional material is used:

- a) Pre-recorded videos cassettes of extension lectures on various subjects are used to enhance the quality of teaching
- b) Pre-recorded Audio cassettes on linguistics are used to refine the communication skills of the students
- c) T.V. to show educational program to supplement and enrich class room teaching
- d) Micro lessons/Mega lessons are shown for the orientation and refinement of teaching skills of the student teachers
- e) Maximum use of computers for knowledge of ICT so that students can acquire knowledge of technology and may prepare themselves for use of technology as preparation of Power Point Presentations, preparation of assignments etc.

### **3.2.2 Give details on facilities available with the institution for developing instructional materials?**

Ans: The institution provides every type of facility for development of instructional material.

Facilities available with the Institution are:

1. A well equipped library with variety of books, journals, reference books, encyclopedias and dictionaries etc.
2. Computer Laboratory with free and unlimited internet facility for staff and students.
3. Well equipped Psychology Laboratory.
4. Educational Technology Laboratory with OHP, LCD Projector, Television, Tape Recorder, Cassettes etc. for developing Slides, Transparencies and Power Point Presentation material.
5. Well equipped Computer-cum-Language Laboratory for improving communication skills.
6. Science Laboratory well equipped for practical work in sciences.
7. Fine Arts and Work Experience room for preparing teaching aids to be used in different teaching subjects and also to learn Pot Painting, Creating Best Out of Waste, Clay Modeling, Flower Making, Tile Painting, Glass Painting and many other such things.
8. Well equipped Mathematics Laboratory
9. Reprographic facilities like Photocopier, Printer, and Fax Machine etc.

The teacher educators make good use of the above mentioned resources to develop the effective instructional materials for enhancing quality of teaching within the institution and in practice teaching. Further, the students utilize these facilities optimally. Students can browse internet to know the latest development of instructional materials. The college students are issued library cards which they use to access the books in the library for reference and also to get the books issued. Periods are allotted in the time table for library work. Students are encouraged to collect information from the library. The students discuss these assignments later on in their class.

Thus all these facilities are for preparing instructional material.

### **3.2.3 Did the institution develop any ICT/ technology related instructional materials during the last five years? Give details.**

Ans: Yes, the institution developed ICT/ technology related materials during the last five years. In order to make teaching learning process meaningful and lasting one the institution has developed the following ICT/technological instructional materials:

- Self-instructional materials (Notes)
- Transparencies
- Power point presentations
- Question Bank etc.

All these instructional materials are utilized for effective concept attainment and preparing the student teachers to face the emerging technological trends.

### **3.2.4 Give details on various training programs and/or workshops on material development (both instructional and other materials).**

Ans: The details of various training programs on material development (both instruction and other materials) are given below:

1. Training program on preparation and use of teaching aids is organized every year for B.Ed. students. The procedure for preparation of different types of Charts, Models, Slides, and Transparencies etc. is demonstrated by the lecturers. The students are divided into groups and then asked to prepare these aids.
2. To motivate the students to excel in preparation and use of teaching aids, subject-wise teaching aids competition are also held by the institution.

3. Members of faculty participate in all training programmes organized for Curriculum Development and Revision of curriculum for B. Ed. and D. Ed. courses.
4. since the knowledge of Information and Communication Technology is considered as an integral part of teaching, a 'Computer Training Programme' are also arranged for the student-teachers.
5. With the knowledge of using ICT, preparation of Power Point Presentation has been done and utilized by the student-teachers and faculties during micro-teaching, demonstration and discussions lessons and practice session.
6. Preparation of notes is also done through internet reference and is distributed to the students.
7. Student-teachers are taught to prepare Transparencies to be used in Overhead Projector in their concerned subject and use them during teaching.
8. They are encouraged to prepare and present lesson plan in their teaching subjects with the use of ICT.

### **3.2.5 List the journals in which the faculty members have published papers in the last 5 years.**

Ans: The list of the Journals/Edited Books/Newspapers/ Souvenirs in which the faculty members have published papers in the last five years is as follows:

The Publication by the faculties are:

1. Shabad Sarokar, July-Sept.-2010-ISSN No.-22294732
2. Shabad Sarokar, Oct-Dec -2010- ISSN No.-22294732

## **6.3 STRATEGY DEVELOPMENT AND DEPLOYMENT**

**6.3.1 Has the institution MIS in place, to select, collect align and integrate data and information on academic and administrative aspects of the institution?**

Yes, the management information system (MIS) is effective in operation. The college has MIS in place, to align and integrate data and information on academic and administrative aspects of the college on the college website-www.bceviratnagar.com. The institutional website contains information on programmes offered, the course content, and the infrastructure available. It also has detail of faculties available, library and academic and nonacademic activities of the institution, examination results etc.

According to this system the collection of data in coordination with the faculty members is integrated and finally compiled data supplied to the head of the institution, management, academic and administrative bodies of the institution as and whenever required.

It helps to analyze the actual problems and to plan actual solutions to them. It is a very important and scientific tool for curriculum design, improvement of teaching-learning process, identifying developmental needs of students as well as of staff members, availability of adequate physical infrastructure including ICT resources and learning resources, assessment of students growth and welfare, and to generate new ideas and innovative methods for the quality development of the educational standard of the institution.

### **6.3.2. How does the institution allocate resources (human and financial) for accomplishment and sustaining the changes resulting from the action plans?**

Soon after the plan of action is prepared, due attention is given to all requirements and resources to execute the action plans. Accordingly, proper arrangements for the allotment of physical and human resources are made.

Whenever the human resource is in need, the institution appoints the qualified staff to fulfill the need. Duties and responsibilities are allocated to them according to their subject of specialization, capacities and skills.

All the financial resources which include salaries, purchase of library books, infrastructure, maintenance etc. are allocated as per UGC, NCERT and University norms.

Collective planning and integration of programs of new and old, important and unimportant academic and outreach are analyzed for allotment of resources.

### **6.3.3 How are the resources needed (human and financial) to support the implementation of the mission and goals, planned and obtained?**

Ans: The institution has sufficient human resources to support the implementation of the mission and the goal. We receive academic and professional help from them through meetings, feedback, discussions. And also in the staff meetings, the faculty volunteers are selected for various activities this enables us to fulfill our vision. Planning of all resources is done as per University norms.

The major financial resource is only the fees collected from the students. Financial resources are also planned by the management after discussion with head of the institution and is used for the implementation of the mission and goals.

**6.3.4. Describe the procedure of developing academic plan. How are the practice teaching school teachers, faculty and administrators involved in the planning process?**

**Procedure for developing Academic plan:**

Every activity of this institution is transparent in order to promote better Co-ordination and understanding at all levels of administration and teaching. Before the starting of every academic session the staff members come together to plan and decide about the activities for the academic year. Subjects are distributed according to the specialty (or) preference. The teaching plan, number of subject, number of working hours for each teacher is worked out and presented to the principal.

This helps the principal to have a clear picture about what subject is being taught in which hour by whom. Also each class in charge teacher present attendance every week to the Principal .During the beginning of every year the principal & the staff have a meeting to plan that year's academic & other activities. The principal states the goals and objectives to be achieved in that particular academic year. Regular meeting ensure the systematic procedure and coverage of syllabus within the specified time.

At the time of practice teaching the in-charge of practice teaching visits the concerned schools and conducts meetings with the headmaster and the teachers. During the meeting, all the aspects related to practice teaching like time table, number of lessons to be taught by trainees, planning of teaching lessons, observations to be made, feedback to be given by teacher in charge etc. are discussed and final planning is made accordingly for better functioning.

**6.3.5 How are the objectives communicated and deployed at all levels to assure individual employee's contribution for institutional development?**

Ans: On the basis of system perspective plans the employees are oriented to institutional goals and objectives through personal interactions with the Principal, senior faculty and the members of the management. However, adequate care is exercised to see that no one is overloaded. Whenever necessary, additional personnel are deputed, the senior faculty helps out the juniors when they seem to face difficulties. The aim is to bring out the best in every employee through synchronization of individual and institutional goals.

**6.3.6 How and with what frequency are the vision, mission and implementation plans monitored, evaluated and revised ?**

Vision and Mission acts as a goal for any institution towards which all the activities of an institution are directed. The institution monitors and evaluates its implementation plan at different stages.

The vision, mission and implementation plans are monitored, evaluated and revised from time to time. Planning is done in the beginning of the session and its monitoring and evaluation is done weekly, monthly, quarterly and yearly. The college has an internal co-ordination and monitoring mechanism through the various committees to look after different activities. Periodic meetings are held with the teaching and non-teaching staff for proper administration and management. The teachers and non-teaching staff are required to maintain daily diaries and to submit every week. Head of the institution accordingly guides the staff and required changes may be incorporate.
